SUMMARY

I'm highly passionate about computing and creating elegant abstractions to solve challenging problems. I am a seeker who always wants to expand himself in every dimension of life in the best way he can.

EXPERIENCE

Software Engineer

Tatvasoft

07/2022 - Ongoing Ahmedabad

- Developing a web platform for **complex management** involves overseeing the day-to-day operations of a residential complex with the collaborative team Builder.ai.
- Design, develop, and test design features in a timely manner.
- Continually tested the site for usability while addressing any bugs.
- Write a **unit test case** of the modules with **coverage** of more the **80%** in jest and Enzyme.
- Worked on an in-app and firebase **push notification** and **multilanguage** support functionality.

Junior Software Engineer

Tatvasoft

07/2021 - 06/2022 Ahmedabad

- Developed a multivendor **e-commerce** platform offering a unique shopping experience to the end customers with collaborative team Builder.ai.
- Collaborated with product managers to design cutting-edge features.
- Write a **unit test case** of the modules with **coverage** of more the **80%** in jest and Enzyme.
- Continually work to ensure the user experience determines design choices.
- Develop a **group shopping** with **chat** and **screen sharing** functionality.

Intern

Intern

01/2021 - 06/2021 Ahmedabad

- Develop a centralized marketplace for buyers and sellers where they can buy/sell **healthcare** products all across India. Also, Service providers like Gyms, Yoga, Meditation, etc. Can list themselves on the platform and interested customers can opt for the subscription and appointment.
- Collaborated with the **Builder.ai** team to analyze system solutions based on client requirements and develop the platform.
- Implemented firebase **push notification** when users book appointments or subscriptions.
